

SUGAR E-BOOST[®]

FERTILIZER ADDITIVE

Sugar E-Boost[®] is a natural liquid that provides energy to speed beneficial bacterial activity in the soil. Effective for foliar and soil applications, Sugar E-Boost can be applied during planting, side-dress, transplant, or fertigation. Use of Sugar E-Boost aids in the development of stronger, healthier plants and can contribute to increased yields.

This product contains no chlorides and no added bacteria or microbes. Sugar E-Boost is for use on all crops and is compatible with most herbicides, insecticides, and fungicides. When used with fertilizers and/or herbicides, Sugar E-Boost helps ensure plant nutrients are made available to growing crops.

DIRECTIONS FOR USE

Suggested rates are per application per acre.

Starter Fertilizer: 1-3 pints	Foliar Fertilizer Mix-In: 1-2 pints
Broadcast Fertilizer: 1-4 quarts	Fertigation Fertilizer Mix-In: 1-2 pints
